## **Instruction of 10.2" X8.3" UV Exposure Unit**

ASC 10.2" x8.3" exposure unit is equipment used for small area exposure, especially suitable for exposure of small size plates.

### ◆ **Scope of applications:**

- PCB's
- Hot Foil Polymer Plates making
- Letterpress Polymer Plates making
- Pad Printing Plates making
- Sandblasting plate making
- Glass etching Stencils making
- Rubber Stamps plate making
- Screen printing plate making

### ◆ **Parameters**

1. Voltage: **110V**
2. Exposing Area: 10.2"x8.3" (260x210mm)
3. Time Range: 0-550 seconds
4. Light Power: 48W (six 8W UV fluorescent bulbs )
5. Machine Size: 12.6"x12.5"x4.3"(320x317x108mm)
6. Package Dimensions: 14.6"x14.6"x5.5"(370x370x140mm)
7. Net Weight: 8.4Lb (3.8kg)
8. Shipping Weight: 10.6Lb (4.8kg)
