

## 110v Stencil Laser Cutter Cutting Plotter 40W CO2 Laser Machine

Item number: 017070

Cut large, easily-read stencils quickly and easily. Durable construction and economical choice make the Super Size Stencil-Cutter the only stencil machine you'll ever need. An electronic stencil-cutting system that is computer-driven with state-of-the-art software designed specifically to meet your varied stencilling requirements, using it you can make out all kinds of unique wall, sign, airbrush, paint stencils. Cooling System Professional constant temperature water chiller for lasercutting machine.

This machine includes 40W laser tube, supports for laser engraving, cutting and equipped with knives. It has the function of laser machine and carving machine. It suit for all kinds of nonmetal materials and built-in ARTCUR software. It support to direct output by coredraw and operation environment is Windows XP 7/ 8.

### Technical parameter:

Maximum paper feed width: 1390mm (54.7")

Real cutting range: 1240mm (48.8")\*limitless length

Cutting speed: 10-800mm/min(0.39-31.50inch/min)

Software: Artcut/CorelDRAW

Interfaces: Serial, USB

Power: 110V

Operating environment: water temperature 41-86F (5 - 30° C)

Laser Type: CO2 laser tube

Laser power:40w

Gross weight: 177Lb (80kg)

Package sizes: 90.55\*20.08\*22.83" (230\*51\*58cm)

# The use of laser cutting Please connect the water pump
