

# Instruction manual

## 1.The first step

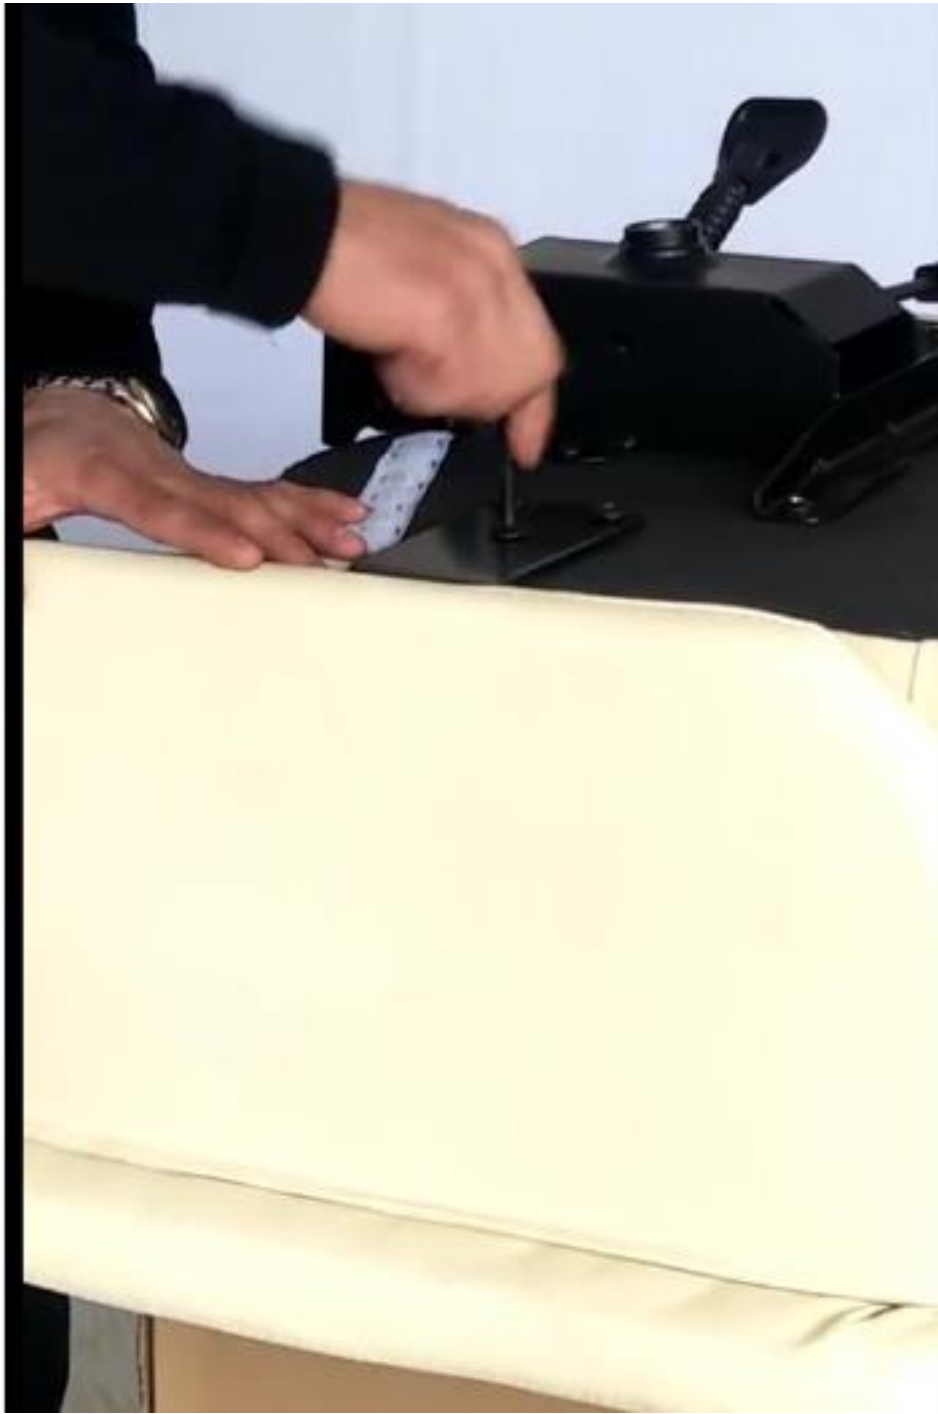

Remove the base of the chair and the lifter, and insert the lifter directly into the base without screws.

## 2.The second step

There are screws at the joints of the armrests of the chair, remove the screws, and then install the armrests.

### **3.The third step**

Insert into the joint below the seat of the chair.

As shown in the below picture.

#### 4.The last step
